

## Havacılık ve Uzay Bilimleri Alanındaki Uluslararası Yayınlar

1. **CEAS Aeronautical Journal (Havacılık Dergisi)** – Avrupa Havacılık ve Uzay Dernekleri Konseyi Resmi Gazetesi. CEAS Havacılık Dergisi, bilim adamları ve mühendisler tarafından sunulan mükemmel bilimsel yayınlar için uygun bir platform sağlamak üzere CEAS çatısı altında oluşturulmuştur. Alman Havacılık Merkezi (DLR) ve Avrupa Uzay Ajansı (ESA) Dergisi destekliyor. (<http://ceas.org/latest-technical-journal>)
2. **Progress in Aerospace Sciences (Havacılık Bilimlerinde İlerleme)** - Havacılık ve Uzay Bilimleri alanındaki ilerlemeler, havacılık bilimleri ve araştırma kuruluşları, endüstri ve üniversitelerdeki uygulamaları ile ilgilenen herkese geniş bir ilgi ve kullanım için tasarlanmış uluslararası bir derleme dergisidir. (<https://www.journals.elsevier.com/progress-in-aerospace-sciences> )
3. **Journal of the Aerospace Sciences** - In 1963, AIAA was formed through the merger of the American Rocket Society and the Institute of the Aerospace Sciences. AIAA maintains the digitized journal content published by its two predecessor societies (1930-1962) and is proud to offer the Journal of the Aerospace Sciences published by the Institute of the Aerospace Sciences from 1958-1962. 4. **Aerospace Science and Technology** – Netherlands-SIR Ranking of Netherlands. Aerospace Science and Technology publishes articles of outstanding scientific quality. Each article is reviewed by two referees. The journal welcomes papers from a wide range of countries. This journal publishes original papers, review articles and short communications related to all fields of aerospace research, fundamental and applied, potential applications of which are clearly related to: The design and the manufacture of aircraft, helicopters, missiles, launchers and satellites; the control of their environment; the study of various systems they are involved in, as supports or as targets. (<https://www.journals.elsevier.com/aerospace-science-and-technology> )
5. **Journal of the Astronautical Sciences** – United States The Journal of the Astronautical Sciences is an archival publication devoted to the sciences and technology of astronautics. Articles are published which present significant new results, important insights, or state of the art surveys in all areas of astrodynamics, celestial mechanics, atmospheric flight mechanics, navigation and guidance, and space related sciences. Authors are encouraged to submit papers on attitude dynamics, orbit determination, trajectory optimization, space mission analysis, numerical methods, maneuvering flight vehicles, dynamics and control of large flexible space structures, and space sciences related to new astronautical systems and their applications. <https://link.springer.com/journal> )
6. **International Journal of Aeronautical and Space Sciences** – South Korea. (<https://link.springer.com/journal> )
7. **Transactions of Nanjing University of Aeronautics and Astronautics** – China (<https://www.scimagojr.com/journalsearch> )
8. **Congress of the International Council of the Aeronautical Sciences, ICAS 2014**– Germany (<https://www.scimagojr.com/journalsearch> )
9. **Aerospace Sciences Meeting** – United States .( <https://arc.aiaa.org> )
10. **International Conference on Space Science and Communication, IconSpace** –United States (<https://www.scimagojr.com/journalsearch> )
11. **Proceedings of the International Astronautical Congress, IAC** – United States (<https://www.scimagojr.com/journalsearch> )
12. **Canadian Aeronautics and Space Journal** – Canada. The Canadian Aeronautics and Space Journal (CASJ) is the official journal of the Canadian Aeronautics and Space Institute (CASI).

The CASJ is published four times per year by CASI and is devoted to the timely reporting of fundamental and applied research, new technologies and other developments in the aerospace sciences and related fields to the international community. The Editorial Board will consider publishing material ranging from advanced theoretical treatises to the dissemination of experimental results, as well as book reviews and abstracts of recent reports and publications of Canadian aerospace research organizations. All manuscripts require favourable peer review prior to publication. (<http://pubs.casi.ca/journal/casj> )
